

## Statement of Need

Awareness of the incidence and risk factors for DRP is becoming increasingly important for making the diagnosis of the DRP. The diagnostic criteria for the DRP should be refined. It should be acknowledged that CT pattern approach helps patient triage and prognostication in DRP. Management of the DRP needs clarification.

## Target Audience

This course is designed for cardiothoracic radiologists, diagnostic radiologists, pulmonary medicine specialists, cardiothoracic surgeons, and fellows and residents with an interest in cardiothoracic imaging. Because of the prevalence of diseases of the chest in the general population, the course will also be of value to internists and family physicians.

## Learning Objectives

At the end of this course, participants will be able to:

- Explain the importance of CT pattern approach in the diagnosis and management of the DRP
- Describe the diagnostic criteria of the DRP
- Describe the management of the DRP

## Commercial Support

This activity is not supported by any commercial education grants.

## Disclosures

As a provider accredited by ACCME, the Society of Thoracic Radiology must ensure balance, independence, objectivity and scientific rigor in its educational activities. Course Director(s), Planning Committee Members, Faculty, and all others who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity. Safeguards against commercial bias have been put in place. Faculty will also disclose any off-label and/or investigational use of pharmaceuticals or instruments discussed in their presentation. Disclosure of these relevant financial relationships will be published in course materials so those participants in the activity may formulate their own judgments regarding the presentation.

The following faculty members have disclosed financial relationships with ineligible companies:

<b>Name</b>	<b>Ineligible Company</b>	<b>Relationship</b>
Hiroto Hatabu	Konica-Minolta Canon Medical Systems Mitsubishi Chemical Co.	Research Grant Research Grant; Consultant Consultant
Mizuki Nishino	Merck Canon Medical Systems Daiichi Sankyo Astra Zeneca	Research Grant Research Grant Research Grant; Consultant Research Grant; Consultant

Charles Powell	Daiichi Sankyo Astra Zeneca Bristol Myers Squibb	Consultant Consultant Consultant
Suhail Raouf	McGraw Hill for Manual of Critical Care Medicine	Royalty

All relevant financial relationships have been mitigated.

All other faculty and planners have disclosed that they do not have any financial relationships with ineligible companies.

### **Accreditation and Designation Statements**

The Society of Thoracic Radiology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Society of Thoracic Radiology (STR) designates this live activity for a maximum of 2.0 *AMA PRA Category 1 Credits™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.

### **How to Claim CME Credits**

1. Use [this link](#) to complete the activity survey
2. Complete and submit the course questions and evaluation
3. Click the “Download Certificate” button to print your certificate

### **Contact Information**

If you have questions regarding your CME certificate, please contact [info@fleischner.org](mailto:info@fleischner.org) for assistance.

**Credit can be claimed through August 10, 2021**
